

1) Jim (United Aromatherapy Effort),
I have certainly enjoyed the "Germ Beater"
spray. With our work environment here in
in Kabul Afghanistan the air quality is
a lot to be desired. The scent brings me
a little touch of home and cleanliness.
Thanks for your contributions.

DANE SNOWDEN, LTC
Camp Phoenix Afghanistan.

2) United Aromatherapy Effort: Wow! Thank you
so much for wonderful products. I have
headaches often and the Fresh Air
and Sine Ease Inhaler help provide
Relief. Thank you so much for your
efforts in supporting Soldiers.

SFC Raedelle Scott-Ceryx
Camp Phoenix, Kabul, Afghanistan

3.) United Aromatherapy. I want to
thank you for your products + support
I have enjoyed the Germ Beater spray
especially being here in Afghanistan
where the air is not so reliable at
times. Again, thank you so much
for your support.

Sr A Azminda Azoca
Camp Phoenix, Afghan

- United Aromatherapy Effort: I must say that I ~~was~~ definitely did not expect these gifts. But, I'm truly and indeed grateful. I have horrible sinuses and in a place like Kabul Afghanistan your breathing miracles gives us soldiers hope + peace. I inhale the sinus reliever a couple times daily. I spray the sweet lemon scent fragrance in my room daily. From fresh to for germs. I am grateful to have received my little heaven in a bottle. "my little secret weapon and peace of mind". SPC SHAHIDAH AMEERAH W
Thank you! ;)

- UAE:

I Love aromatherapy oils and how they calm your inner being. Thank you so much for your generosity and sharing these products with us. I love the nasal inhaler + the "Fresh Air" spray. I am in the massage therapy industry and being in Afghanistan and having something to remind me of home + the thing I love, is great!

Thanks again!

- SPC Angel S.

(4) United Aromatherapy Effort: I Am
full of gratitude for the wonderful
gifts (1) germ beater (2) Fresh Air (3)...

I am a person who has been on a holistic
path since the '90s. Then 9/11 happened and
I ran for "more" holistic practices because
I was in New York on Ellis Island dock
watching the 1st plane come thru the World Trade
Center.

Lavender became my best friend I could
not sleep over 2 hours but when I put lavender
plug ins or spray the bedroom - I could
sleep again. The inhaler helps calm me down
in the evenings.

Your germ beater is good because I'm
the only person in our office (over 40) who
did NOT get a cold. Afghanistan B-h
are on all of close so I know this spray works
for me.

Peace, Love & Much Happiness to all
of you for thinking of sharing with us.
K. Thompson - Dad
